ABOUT US

Pro-Cal
Solutions

Professional Instrumentation Services

Pro-Cal Solutions is a trusted provider of skilled labour and technical solutions in the Australian resources industry.

With a proven track record of excellence in electrical and instrumentation services, we have expanded our expertise to include mechanical fitters to meet the growing demands of the mining, oil & gas, and energy sectors.

Our team includes highly skilled and experienced mechanical fitters who are committed to safety, efficiency, and precision in maintaining and optimizing mechanical equipment critical to the industry.

Having the experience and expertise to effectively collaborate with engineering and management teams allows us to deliver outstanding solutions for site specific challenges.

OUR SERVICES

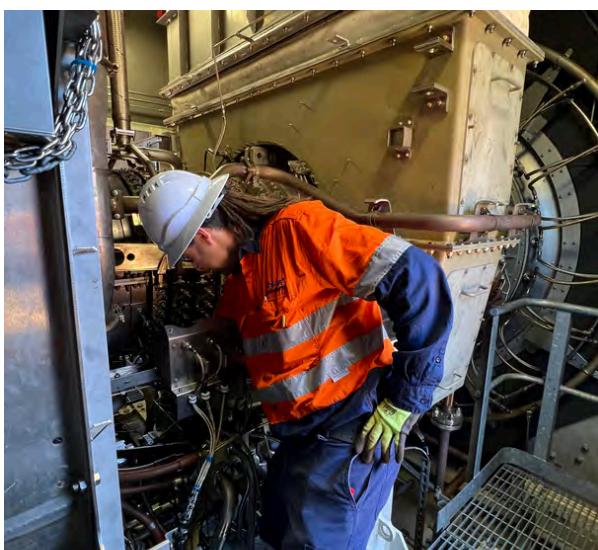

Installation & Commissioning

- Assembly and installation of machinery and equipment.
- Precision alignment and testing during commissioning.
- Collaboration with multi-disciplinary teams to ensure seamless integration.

Shutdown Services

- Expertise in shutdown planning and execution.
- Efficient dismantling, servicing, and reassembly of mechanical systems.
- Rapid mobilization of skilled labor for time-critical projects.

Plant Maintenance & Repair

- Routine and preventative maintenance of equipment.
- Diagnosis and rectification of mechanical faults.
- Breakdown support and emergency repairs.

Rotating Equipment Support

- With extensive experience with rotating machinery such as industrial gas & steam turbines, generators and compressor sets, we can execute campaigns to coincide with short-duration machine outages
